COMICS FOR KIDS

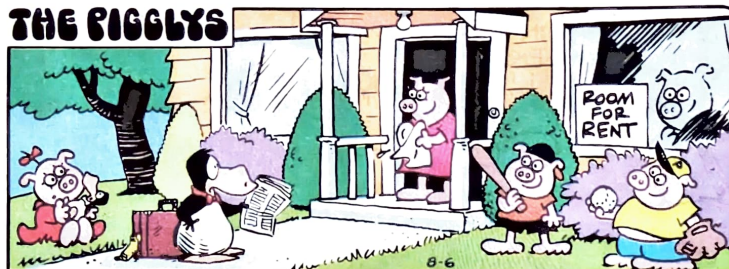

The cute koala bears of eastern Australia have a very limited diet. They only eat the leaves, buds and flowers of eucalyptus trees. And you thought you were a picky eater!

Another interesting animal of Australia is the platypus, whose toothless jaws are shaped like a duck's beak. The platypus is a warm-blooded mammal, but instead of bearing its young alive, it lays eggs!

THE PIGGLYS

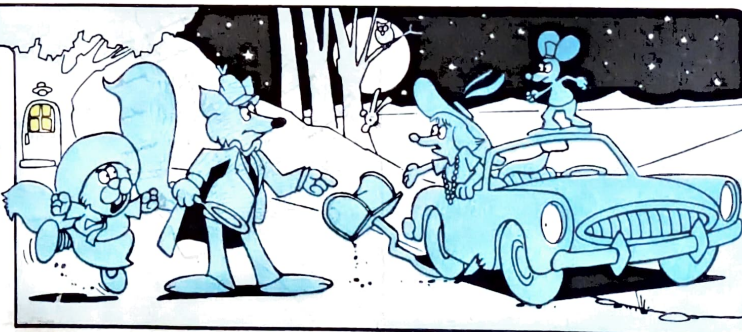

The Pigglys have a visitor looking for a place to live. Papa Piggy says he can have a room here for 56 dollars a week. At that rate, how much would it cost the visitor per day?

Answer — The room would cost eight dollars per day.

Slylock fox

Wanda Weasel says that it is not her fault that she crashed into Granny Squirrel's mailbox. Wanda claims another car forced her off the road. She says she saw the driver in her rearview mirror and recognized it to be Mandy Mink. What does Slylock Fox think?

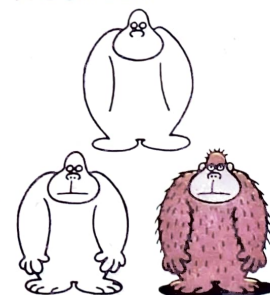

The headlights glare from the car behind Wanda's would have prevented her from seeing the driver. Slylock thinks Wanda tried to blame someone else to cover-up her own reckless driving.
